PROJECT	Gas Leakage Monitoring & Alerting System for Industries

Problem Statement

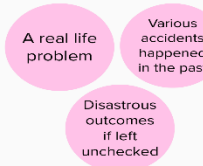

WHO?

The industry, the workers and surrounding people and environment will be affected if accidents happen.

Can pose a great threat to society & environment.

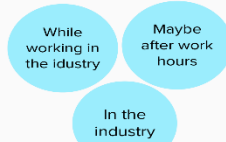

WHAT?

Is ignored most of the times.

Must be checked & maintained properly.

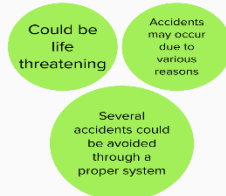

WHERE/ WHEN?

May occur due to equipment mishandling during work.

In or outside the industry like storage areas.

WHY?

Serious life threatening accidents may occur.

It is inevitable to have proper safety system in all industries to avoid danger.
